

Intake Form

Please indicate which divisions of Pathology will be involved in this project (check all that apply)

☐ Anatomic ☐ Hemato ☐ Clinical ☐ Molecular ☐ Experimental ☐ Computational ☐ Imaging Core

Project Title

Principal Investigator(s)

Please provide 3 most recent representative publications

Research Team

Please provide names of Co-investigators with 3 most recent representative publications for each (if applicable)

Hypothesis

(One sentence)

Background

Significance

What is the significance of this proposal in addressing an unmet clinical need?

Aims and Objectives

Please state the overarching goal and specific aims of the proposal

Novelty and Impact

Please explain how this proposal is addressing a new problem, or how it approaches resolution of an old problem

in a new way

Research Strategy

Provide a description of the study design and approach

Study Population

Include a brief description such as health status or primary diagnosis

Sample Size

N= (If more than one cohort also indicate sample size per cohort)

Study Duration

Projected end date for the completion of the study (including data analysis and manuscript submission)

Expected Results

(2-3 sentences)

Plan for Publication

Indicate targeted journal(s)

Plan for Grant Submission

Indicate extramural grant targeted (if applicable)

Budget Details / Departmental Resources Requested

Indicate targeted journal(s)

Funding

Total amount requested
